

MISSION STATEMENT

The AirCrew Association existed to foster comradeship amongst those who, had been awarded an official flying badge, had qualified to operate military aircraft and had served as military aircrew in the armed forces of those nations allied to the United Kingdom and Commonwealth. The Association provided the structure, facilities and conditions whereby members could enjoy comradeship and social, intellectual, cultural and sporting activities. Members kept in touch through Branch Meetings, through the Association quarterly magazine INTERCOM and The AirCrew Association website at aircrew.org.uk
